Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

This Final Office Action is mailed in response to amendment filed 2/21/2006, wherein claim 1 was amended, and claims 2-8, and 16-20 were presented as original.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Leventry (US 1,454,900). Leventry discloses a rack having a frame (1) and a plurality of horizontally oriented clamping mechanisms (8) spaced vertically along the frame. Actuation means (17) functions to open and close all clamping mechanisms in unison (pg. 2 lines 96-106). Spring (19) maintains all the clamping mechanism individually normally biased in a closed position (pg 2 lines 106-119). Further each clamping mechanism is individually self-adjusting upon closing (pg. 1 lines 70-75 and pg. 2 lines 122-127). From the disclosure of Leventry it is clear that each clamping mechanism would grip an object with equal strength proportional to the force exerted by the spring 19.

With respect to claim 2, each clamping mechanism (8) comprises a pair of relatively movable jaws (9), and the actuation means (17) has a rod (18) connected to a lever (23), which is capable of overcoming the closing bias of the spring (19).

With respect to claim 3, each jaw (9) has a pair of levers (10) connected to the actuating means (17) through a pivot bolt (11).

Allowable Subject Matter

Claims 4-8, and 16-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to claims 1-8, and 16-20 have been considered but are moot in view of the new grounds of rejection. The new grounds of rejection were necessitated by amendment adding "individually" into claim 1 line 6.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
